

HR LEAVE REQUEST

HR Step-by-Step Guide

Leave requests with manager approval, a paid-leave quota and automatic unpaid deductions.

A simple guide to setting the leave policy, raising a request, approving it and reading the balance.

Module Version 19.0.1.1.0 · Odoo 19 · Human Resources

About This Module

HR Leave Request gives every employee a simple way to ask for time off and gives managers a clear way to approve it. Beyond a yes/no, the module understands your paid-leave policy: it tracks how much paid leave each person has left, splits a request into paid and unpaid days when the quota runs out, and works out the salary deduction for the unpaid part automatically.

This guide follows a request end to end: configure the policy once, raise a request, approve or reject it, and read the balance and reports.

What the Module Gives You at a Glance

- **Simple requests** — from date, optional to date, half-day option and a reason.
- **Six leave types** — Sick, Casual, Annual, Personal, Emergency and Other.
- **A clear lifecycle** — Draft, Pending Approval, Approved, Rejected and Cancelled.
- **Paid-leave quota** — configurable per year and per month.
- **Automatic paid/unpaid split** — when the quota is exceeded.
- **Automatic deductions** — salary deduction for unpaid days.
- **Per-employee balance** — used and remaining at a glance.
- **Overlap protection** — two requests cannot cover the same dates.
- **Carry-forward** — optional carry-over of unused paid leave to next year.

Who this is for: Employees who raise requests, Managers who approve them, and HR Administrators who set the company leave policy and quotas.

PART 1 FINDING LEAVE REQUESTS

1 Open the Leave Requests menu

Everything lives under Attendances → Leave Requests. Employees use My Leave Requests; managers also see All Leave Requests and the Approved Leaves Report. The policy sits under Configuration → Leave Policy.

The Leave Requests menu under Attendances, with the Configuration → Leave Policy entry.

PART 2 CONFIGURING THE LEAVE POLICY

The policy is set once per company and drives every calculation that follows.

Configuration → Leave Policy lists the leave policy held for each company.

2 Set the paid-leave settings

Open Configuration → Leave Policy. Turn on Enable Paid Leave and set Paid Leave Days Per Year and Paid Leave Days Per Month. These define how much leave is paid before deductions begin.

3 Set the unpaid / deduction settings

Turn on Enable Unpaid Leave Deduction so that days beyond the quota are deducted. The deduction uses the employee's monthly wage divided by the working days in the month; a half day is half of that daily rate.

4 Set carry-forward (optional)

Enable Allow Carry Forward and set Max Carry Forward Days if unused paid leave should roll over to next year.

Company My Company

PAID LEAVE SETTINGS

Enable Paid Leave? ☐ Allow Carry Forward? ☐

Paid Leave Days Per Year? 0

Paid Leave Days Per Month? 0.00

UNPAID LEAVE / DEDUCTION SETTINGS

Enable Unpaid Leave Deduction? ☒

How it works:

- Each employee gets the configured paid leave days per year.
- When an employee exceeds their paid leave quota, the leave becomes unpaid.
- Unpaid leave deduction = Employee Monthly Wage ÷ Working Days in Month.
- Half day unpaid = half the daily rate.
- Admin can change these settings at any time.

The Leave Policy form — paid-leave settings, unpaid-deduction settings and how the deduction is worked out.

NOTE Paid days are limited by the smaller of the yearly and monthly remaining quota. Anything above that becomes unpaid and is deducted automatically.

PART 3 RAISING A LEAVE REQUEST

This part is for employees. Open Attendances → Leave Requests → My Leave Requests.

5 Fill in the request

Click New and complete the form: confirm your Employee, choose a Leave Type (Casual is the default), set the From Date (required) and, for more than one day, a To Date. Tick Half Day for a half-day request, and add a Reason.

Leave type	Typical use
Sick Leave	Illness or medical appointments.
Casual Leave	Short, planned personal time off (the default).
Annual Leave	Planned holiday / vacation.
Personal Leave	Personal matters not covered above.
Emergency Leave	Urgent, unforeseen situations.
Other	Anything that does not fit the categories above.

As you fill the dates the form shows Number of Days, and once saved it splits them into Paid Days and Unpaid Days with the matching Deduction Amount.

The screenshot shows the 'Leave Requests' form in the 'Draft' status. The form is titled 'Casual Leave - Juma - 2026-06-19'. It has a navigation bar at the top with links to 'Attendances', 'Overview', 'Management', 'Kiosk Mode', 'Reporting', 'Late Tracking', 'Field Attendance', 'Leave Requests', 'Employee Report', 'User Guide', and 'Configuration'. The form is divided into two main sections: 'LEAVE DETAILS' and 'APPROVAL INFO'. The 'LEAVE DETAILS' section includes fields for 'Employee' (Juma), 'Leave Type' (Casual Leave), 'From Date' (Jun 19), 'To Date' (Leave empty for single day), 'Half Day' (unchecked), 'Number of Days' (1.00), 'Paid Days' (0.00), 'Unpaid Days' (1.00), and 'Deduction Amount' (740.74). The 'APPROVAL INFO' section includes fields for 'Approved/Rejected By' and 'Approval Date'. Below these sections is a 'REASON' field with a placeholder text 'Enter the reason for your leave request...'. The form has a 'Submit for Approval' button and a 'Cancel' button. The status bar at the top right shows 'Draft', 'Pending Approval', and 'Approved'.

A new leave request in Draft, showing the number of days and the paid / unpaid split.

6 Submit for approval

Click Submit for Approval. The request moves from Draft to Pending Approval and waits for a manager. You can Cancel a request, and a rejected or cancelled one can be reset to Draft and resubmitted.

The screenshot shows the 'Leave Requests' form in the 'Draft' status for a 'Sick Leave'. The form is titled 'Sick Leave - Juma - 2026-06-19'. It has a navigation bar at the top with links to 'Attendances', 'Overview', 'Management', 'Kiosk Mode', 'Reporting', 'Late Tracking', 'Field Attendance', 'Leave Requests', 'Employee Report', 'User Guide', and 'Configuration'. The form is divided into two main sections: 'LEAVE DETAILS' and 'APPROVAL INFO'. The 'LEAVE DETAILS' section includes fields for 'Employee' (Juma), 'Leave Type' (Sick Leave), 'From Date' (Jun 19), 'Half Day' (checked), 'Number of Days' (0.50), 'Paid Days' (0.00), 'Unpaid Days' (0.50), and 'Deduction Amount' (370.37). The 'APPROVAL INFO' section includes fields for 'Approved/Rejected By' and 'Approval Date'. Below these sections is a 'REASON' field with the text 'Mild fever'. The form has a 'Submit for Approval' button and a 'Cancel' button. The status bar at the top right shows 'Draft', 'Pending Approval', and 'Approved'.

A completed request ready to Submit for Approval (a half-day Sick Leave example).

IMPORTANT Requests cannot overlap. If your dates clash with an existing non-rejected request, the system blocks it and tells you which request it conflicts with.

PART 4 APPROVING REQUESTS

7 Review and decide (manager)

Open All Leave Requests — it opens pre-filtered to Pending. Open a request, check the dates, type, paid/unpaid split and reason, then click Approve or Reject. Rejecting lets you add a Rejection Reason that the employee will see.

Employee Name	Leave Type	From Date	To Date	Half Day	Number of ...	Reason for Leave	Status	Paid Days	Unpaid Days	Deduction A...	Approved/Rejected By
Juma	Sick Leave	Jun 19		☒	0.50	Mild fever	Pending Approval	0.00	0.50	370.37	

All Leave Requests, pre-filtered to Pending and waiting on a manager.

State	Meaning	Who acts / button
Draft	Being prepared.	Employee — Submit for Approval
Pending Approval	Waiting on a manager.	Manager — Approve / Reject
Approved	Granted; paid/unpaid split fixed.	Employee — Cancel (if needed)
Rejected	Declined, with a reason.	Employee — Reset to Draft
Cancelled	Withdrawn.	Employee — Reset to Draft

PART 5 BALANCE & REPORTING

8 Read the balance and reports

My Leave Requests lists your requests colour-coded by status (green approved, orange pending, red rejected, grey cancelled) with the paid, unpaid and deduction figures. Managers use the Approved Leaves Report, grouped by employee, for payroll and the leave calendar.

The Approved Leaves Report, grouped by employee, for payroll.

Quick Reference — Buttons & Menus

Where	What it does
Leave Policy	Set paid quota, unpaid deduction and carry-forward (admin).
My Leave Requests	Raise and track your own requests.
Submit for Approval	Send a draft request to your manager.
Approve / Reject	Manager decision on a pending request.
Cancel / Reset to Draft	Withdraw a request, or reopen a rejected/cancelled one.
All Leave Requests	Manager queue, pre-filtered to pending.
Approved Leaves Report	Approved leave grouped by employee for payroll.

Things to Remember

- Set the Leave Policy first — the paid/unpaid split and deductions depend on it.
- From Date is required; add a To Date for multi-day leave, or tick Half Day for half a day.
- Paid days follow your remaining yearly and monthly quota; the rest is unpaid and deducted.
- Requests cannot overlap an existing non-rejected request.

- Managers work from All Leave Requests (pending); Approved Leaves Report feeds payroll.
